

Year 6 Geography – Flooding/Rivers

How does flooding impact our local area and that of others around the world?

Glossary

Topography— the arrangement of the human and physical features of an area

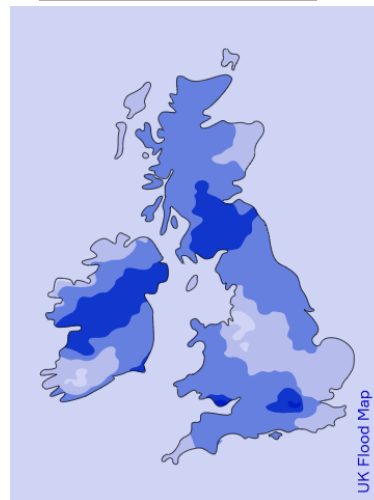

Precipitation— rain, snow, sleet or hail that falls to the ground

Source— the start of a river

Flood plain— an area of low-lying ground next to river which is subject to flooding

Flood plain

Flooding in Bangladesh

Red Hill Riches

I know:

The course of a river can have flood plains

Flooding impacts humans locally and all over the world, including Worcester and Bangladesh

Floods can take place days after the original rain.

Surveying people is a form of fieldwork

Worcester flooding
