

Year 6 Evolution and Inheritance- What is evolution?

Glossary

Charles Darwin

Red Hill Riches

I know:

Living things change over time and that this is called evolution.

Fossils provide information about living things millions of years ago

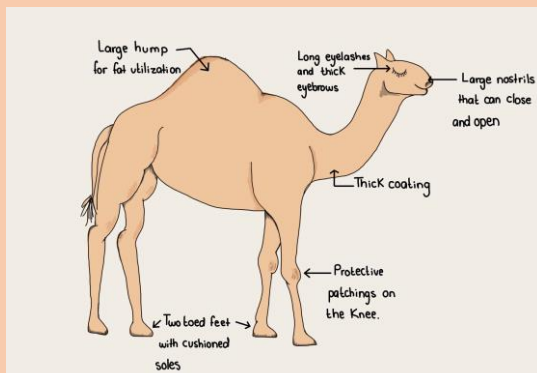

Living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents.

Animals and plants are adapted to suit their environment

Linked Learning

Animals have different characteristics
Changes in environment can be difficult for animals to live and reproduce

Camel adaptation to environment

Evolution of a horse
